Explanation of Breeding/Embryo Transfer Services

Service for Embryo Transfer:

TEVC offers an Embryo Transfer Service for a **\$575.00 non-refundable, non-transferrable, ET fee.**

This ET fee is payment for ONLY the following services: palpations, ultrasound exams, embryo flush, evaluations, and non-surgical transfers.

If an additional flush is deemed necessary, the needed supplies will be invoiced accordingly.

The fee for insemination of the Donor Mare (not including stallion fees or semen transport fees), is additional to the Embryo Transfer Service. For fresh/cooled/live cover, it is \$495.00/cycle, deep-horn insemination is an additional \$65.00, use of frozen semen is \$675.00/cycle.

If any embryo(s) is(are) recovered, they will be shipped to a facility of the Mare Owner's choosing to be implanted into a recipient mare, at the Mare Owner's expense, or placed in a TEVC recipient mare for a leased fee of \$3000.00, or placed in a recipient mare provided by the Mare Owner.

The Mare Owner will bear sole responsibility to find and secure a recipient mare from a source of their choosing. *See Embryo Transfer Contract below for further details.*

2026 Embryo Transfer Contract

This contract made on _____, 20____, by and between Topline Equine Veterinary Care (TEVC), and _____, (Owner) is for the service of Equine Embryo Transfer.

1. The Owner will provide the "Donor Mare" named _____ to TEVC. TEVC will then initiate the process of embryo production and recovery from the Donor Mare. The embryo(s) will either then be shipped counter-to-counter to an embryo transfer facility of the Mare Owner's choosing, for transfer into a recipient mare, or the embryo will be placed in a TEVC recipient mare, or a recipient mare provided by the Owner of the Donor mare.
2. Upon signing of this contract, the Owner will pay TEVC a \$575.00 non-refundable ET fee. This ET fee is payment for ONLY the following services: palpations, ultrasound exams, embryo flushes, evaluations, and non-surgical embryo transfer. If an additional flush is deemed necessary, the needed supplies will be invoiced accordingly. Insemination of the Donor Mare (not including stallion fees or semen transport fees) is additional to the ET fee. The fee for breeding with fresh/cooled or live cover is \$495.00/cycle. The fee for artificial insemination with frozen semen is \$695.00/cycle. All embryo transfer work must be done between February 1, and July 1 of contract year unless special arrangements are made. The owner will pay board for the Donor Mare at a rate of \$21.00/day or \$600.00/month for a dry mare and \$26.50/day or \$650.00/month for a mare and foal. Board includes grain mix twice a day and grass/alfalfa hay, a stall in a heated barn, and turnout during the day weather permitting. Owner will be charged standard fees for all other treatments and drugs that may be deemed necessary based on the judgement of TEVC for proper breeding or health management, including farrier work.
3. Should the Owner of the donor mare choose to use one of TEVC's recipient mares to use the Owner will be responsible for the Recipient Mare fee of \$3000. There is a \$500.00 non-refundable deposit put down at the time of signing. This fee will include the reproduction work for tracking the mare's progress in her cycle to best achieve a synchronization with the Donor Mare for placing the embryo. The \$3000 fee does include the placement fee as well as board up until the confirmed heartbeat check. Owner also agrees to maintain the health and well-being of the recipient mare during pregnancy and after the foal is born- up until she is returned to TEVC. This means all cares such as appropriate feed to maintain body condition is adequately supplied, farrier work to maintain good hoof health, keeping all necessary

vaccinations and deworming up to date, and any emergency veterinary cares the mare should need while in the Donor Mare's Owner's care.

4. Should the Owner of the Donor Mare choose to use their own recipient mare, the Owner will agree to keep the mare at TEVC, and the Owner will be responsible for board and reproductive service fees for that mare, this includes the ultrasounds, ovulatory agents, and Regumate. Owner will be charged standard fees for all other treatments and drugs that may be deemed necessary based on the judgement of TEVC for proper health management, including farrier work.
5. TEVC recommends the Owner maintain insurance on the Donor Mare, Recipient Mare, and the embryo (s) against all losses, damages, and risks. The Owner shall not hold TEVC responsible in any way for loss, damage, risk, or the costs associated with loss or damage while at TEVC or after they leave TEVC.
6. The Owner understands that TEVC is not responsible for the expense of any fees related to the following: stallion services, transport of semen, or semen containers. The owner is also responsible for making sure they meet the requirements for breed registration for any resulting foal born as a result of embryo transfer.
7. The Owner understands and agrees that many factors impact the success of embryo recovery and transplanted. Although, TEVC will make every effort to be successful, there is no guarantee of success. The owner may terminate this contract at the point of unsuccessful embryo recovery, but the Owner must pay all amounts due under this contract. Otherwise TEVC will continue to attempt to fill the obligations of this contract until July 1 of contract year.
8. TEVC reserves the right to terminate the contract and suspend series if the Owner's account is past due.
9. The Owner understands and agrees to pay account in full prior to transporting the Donor Mare from TEVC. Unpaid accounts may result in a lien placed on the Donor Mare and/or the resulting foal. Owner agrees that TEVC can charge credit card on file if any bill is not paid within 30 days' notice of charges placed on Owner's account.

By signing below, I acknowledge and agree to comply with the terms and conditions stated above. Further, I authorize TEVC to act as temporary agent on my behalf should the "Donor Mare" and/or her foal require emergency medical or surgical treatment and I authorize the release of medical and/or financial information from TEVC to the referral clinic/hospital.

IN WITNESS WHEREOF the parties have executed this contract as of the day and year set forth first above.

Explanation of Breeding Services

<p>Breeding via Live Cover or Artificial Insemination with Chilled or Fresh Semen: \$495.00/mare, per heat cycle. Services included: artificial insemination, palpations, and reproductive ultrasounds.</p> <p>Deep-horn insemination: additional \$65.00</p>	<p>Breeding via Artificial Insemination with Frozen Semen: \$695.00/mare, per heat cycle. Services included: artificial insemination within 4-6 hours of ovulation, palpations, and reproductive ultrasounds.</p>
<p>Ultrasounds are utilized to determine the stage of estrous and timing of ovulation, allowing us to order semen or collect the stallion at optimal time. TEVC handles all communications and arrangements to have semen shipped direct to us.</p> <p><u>It is the responsibility of the mare owner to have the contract signed and paid for with the stallion owners.</u></p> <p><u>The mare owner must submit a copy of the shipper's breeding contract/shipping restrictions.</u></p> <p>We will administer an ovulatory agent (additional \$68.50/dose applies) to ensure proper timing of ovulation to correspond with expected insemination. We will continue to ultrasound the mare's reproductive system until ovulation has occurred or it is determined another insemination is needed. Included in the package is one pregnancy ultrasound exam, performed 14 to 16 days post ovulation at TEVC.</p> <p>Any follow-up/recheck ultrasounds (recommended at 30-40 days post breeding) are performed for an additional cost.</p> <p>*Board/care fee is additional, as is the fee for returning shipping containers. Mare owners may consider purchasing their own disposable shipping containers to avoid additional shipping costs.</p> <p>*Special requests/other treatments to mare will be performed at an additional cost.</p> <p>*TEVC does not board stallions to stand for breeding. Stallions must be hauled in for collection(s)/live cover.</p>	
<p>Other Potential Costs: Uterine therapy (antibiotic infusion, flushing, culturing, and biopsy), drugs (sedation, progesterone, ovulatory agents), courier fees to pick up semen at airport, shipping back disposable containers to stallion owners, caslicks procedure, courier fees \$100/shipment and any other unforeseen emergencies. See fee schedule.</p>	

Service Terms and Conditions

This agreement is entered into this _____ day of _____, 20____, by and between Topline Equine Veterinary Care (hereafter referred to as TEVC) and the Mare Owner identified on page (1). TEVC agrees to breed the mare identified on page (1) by the method selected by the owner on page (1) to the stallion selected by the owner listed on page (1) and/or foal out the Mare identified on page (1).

1. The person signing this contract represents and warrants that he/she is the **true and lawful owner** of the mare, or if not the owner, then has actual authority to act as Owner's agent for the purpose of entering into this contract, and to make any and all decisions regarding the animal and its veterinary care. The Mare Owner represents that they are the lawful owner of any frozen semen used in procedures, and if not, the Mare Owner will provide TEVC with the contract information for the lawful owner. The signatory shall be fully responsible for all charges incurred under this contract and shall indemnify, defend and hold harmless TEVC from any and all claims, of every kind and nature, arising as a result of or in connection with this contract (including any claim that such person lacked the right or authority to execute this contract on behalf of the true owner). All references in this contract to the Mare Owner shall be deemed binding upon the person signing this contract, and the owner of the mare (hereinafter, individually, and collectively referred to as the Mare Owner).
2. Mare Owner agrees that during the period TEVC is in possession of the Mare and or Foal, good equine practice may suggest and/or require the Mare and or Foal to be vaccinated, dewormed, and feet trimmed or shod. Therefore, during the term of this contract, the Mare Owner hereby grants to TEVC the right and authority, based upon its independent judgement, to administer **routine preventative medicine** and to have the Mare and or Foal trimmed or shod at any time by the farrier selected by TEVC. The Mare Owner shall pay/reimburse TEVC for the cost thereof upon invoice as set forth below.

3. The Mare Owner hereby releases and shall indemnify and hold TEVC harmless from any claim, demand or loss arising from any disease, injury or death to the Mare and/or foal and/or in utero foal arising out of any undertaking by TEVC under the terms of this contract. Further, the Mare Owner shall exonerate, protect, indemnify, defend, and hold harmless TEVC, from and against any and all liabilities, expenses, claims, fines, penalties, costs, attorney's fees, and damages of every kind (including, without limitation, those arising out of attributed, directly or indirectly, to or resulting from any and all negligent acts or omissions of the Mare Owner, whether caused by the sole negligent acts or omissions of Mare Owner or by the concurrent negligent acts or omissions of Mare Owner), arising out of attributed, directly or indirectly, to the use, possession, transportation (except for transportation, delivery and pick up by TEVC), condition, or storage of the mare, irrespective of the legal theory upon which any such claim or suit may be based. This indemnification shall extend to the successors and assigns of TEVC.
4. Mare Owner is responsible for any **costs related to semen used for the mare.**
5. Mare Owner agrees to **pay, at time of arrival, a down payment of "base" fee, either \$495.00, \$575.00, or \$695.00 (whichever is applicable) and to pay all charges in full, before departure of the Mare and/or Foal.** See Fee schedule attached hereto. At least 48 hours advance notice must be given prior to departure of the Mare and or Foal to allow preparation of required paperwork and invoicing. The Mare Owner is required to make transportation arrangements for the mare and or Foal between the hours of 7:30am-5:00pm, Monday through Friday, unless previous arrangements have been made well in advance.
6. **Mares will not be released if the bill is not paid prior to departure,** unless prior arrangements have been made.
7. All invoice **balances are payable within 30 days of monthly or final invoice.** After 30 days from billing date, interest of 1.5% per month on the outstanding balance will be assessed. TEVC reserves the right to refuse or suspend service when any of the Mare Owner's accounts with TEVC are past due. The Mare Owner agrees to pay all costs and reasonable attorney fees incurred by TEVC in attempting to collect any outstanding balance.
8. Mare Owner is responsible for **obtaining and paying for any insurance** desired on the Mare and/or foal and/or in utero foal. TEVC does not provide insurance.
9. Mare Owner is responsible for **parentage testing** of any foal.
10. Mare Owner is responsible for all **Breed Registry rules and regulations** including, but not limited to, brand inspections required by law.
11. If at any time TEVC determines, in its sole judgement and discretion, that the Mare and/or foal needs to be transferred to a referral clinic (University of Minnesota) for medical or surgical treatment, the Mare Owner is responsible for all charges incurred. **These charges will be billed separately by the referral clinic** and must be paid in full before the animal may be returned to TEVC. TEVC will make reasonable efforts to contact Mare Owner in the event that such transfer is required; however, if the Mare Owner cannot be immediately reached, Mare Owner hereby authorizes TEVC to initiate such transfer and exam.
12. This **contract is non-transferable.** If the Mare and or Foal is sold, all unpaid fees become immediately due and payable and no refunds will be made.
13. TEVC reserves the **right to discontinue service** at its discretion and to terminate this contract upon 10 days advance written notice to the Mare Owner
14. The Mare Owner will be considered in default of its obligations under this contract if the Mare Owner fails to remit any payment within 30 days after invoice or otherwise fails to observe, to comply with, or to perform any term, condition, or covenant contained in this contract and such failure continues for 10 days after TEVC gives the Mare Owner written notice thereof. In the event of default by the Mare Owner, TEVC may terminate this contract as of the date specified in the notice, without prejudice to any other right or relief provided by law. Jurisdiction and venue for any action to enforce

this contract, or for damages or any other relief arising from or in connection with it, shall originate exclusively in the District Court in and for the County of St. Croix, State of Wisconsin.

15. This **contract constitutes the entire understanding** between the parties and supersedes any previous contract or understandings, whether oral or written, concerning the subject matter of this contract. **No services other than those expressly stated in this contract will be provided by TEVC without an express, written and signed amendment to this contract.**

By signing below, I acknowledge and agree to comply with the terms and conditions stated above. Further, I authorize TEVC to act as temporary agent on my behalf pursuant to paragraph (11) above should the Mare, her foal and/or pregnant recipient require emergency medical or surgical treatment and I authorize the release of medical and/or financial information from TEVC to the referral clinic/hospital.

IN WITNESS WHEREOF the parties have executed this contract as of the day and year set forth first above.

Board and Care Stipulations
Please choose the type of board:
<input type="checkbox"/> Outside \$15.00/day or \$350.00/mo. *horses housed outside full-time, with winter/weather appropriate hair coat
<input type="checkbox"/> Stall (under lights) \$21.00/day or \$600.00/mo.
<input type="checkbox"/> Mare & Foal Stall \$26.50/day or \$650/mo.
**Foals boarded longer than 2 weeks will be broke to lead for a \$175 fee.
Outside: Free choice hay, grain twice daily, and water. Shelter is provided in the event of severe weather. <u>Please note: outside board is not an option for mares coming in for breeding that are not cycling naturally, based on season/time of year.</u>
<input type="checkbox"/> May be kept with other horses <input type="checkbox"/> Keep with _____ <input type="checkbox"/> Must be kept separately
Stall: Individual box stall, cleaned daily, in heated barn. Daily turnout (weather permitting) or indoor arena.
<input type="checkbox"/> May be turned out with other horses <input type="checkbox"/> Turnout with _____ <input type="checkbox"/> Must be kept separately
Other turnout instructions:
All horses will be turned out for exercise UNLESS you provide written instructions from a veterinarian stating that the horse is to remain confined. If you do not want your horse turned out and you do not have a veterinarian's statement, you will be expected to come <u>daily</u> to exercise your horse.
*If you choose not to come daily, this service will be provided at a higher boarding fee. (\$36.00/day or \$900.00/month) *
Board is due at the first of each month. If boarded less than a month, board is due when the horse is picked up.

Health & Management

We require full disclosure by owner of any medical conditions that could affect management of the animal before their acceptance into this program will be permitted.

The condition of your animal will be documented upon their arrival.

Please provide the following information to help us manage your animal.

Pre-existing conditions (illness, injury, lameness, vices, etc):

Current Treatments (medications, etc.):

Prior to arrival at TEVC, we require horses to be vaccinated for the following diseases. Please note at least one of the following: 1) approximate date of last vaccination or 2) vaccines needed upon arrival or 3) vaccines you do not want given. *If no vaccination history is provided, animals will be vaccinated upon arrival at Owner's expense.

Please include most recent vaccination dates below:

		Farrier Services
Eastern/Western Equine Encephalitis	(Date)	<p>Trimming or shoeing will be performed as needed or as requested. A Grass Balancer ___ lbs. | Own (Must provide, with instructions) ___ lbs. AM | PM

Vitamin/mineral supplement (must provide):

Qty: _____ | ___ X/day

Any special feeding instructions:

Boarding Terms & Conditions

-If a horse being boarded at Topline Equine Veterinary Care (TEVC) becomes ill or injured and requires a veterinarian's attention, the management will call the veterinarian and the horse owners will be responsible for all charges. Owners will be notified as soon as possible.

-TEVC's regular veterinarian and farriers will be used unless a prior arrangement has been made and agreed upon by the client and TEVC.

-Dean and Jennifer Teigen, and/or Topline Equine Veterinary Care management assume no liability for accident, sickness, or death of a horse, but will exercise reasonable judgement in care and supervision of the horse. Owner and guests understand unforeseen accidents and injury are possible and no horse is safe. Owner and guests are also aware that adverse weather or unfamiliar people and surroundings may affect a horse and are fully prepared to accept those hazards at one's own risk.

-I have inspected the property and I find it safe and suitable for its intended purpose. The management will keep medical records. Routine deworming and vaccination schedule or any other problems or needs can be discussed with the management or Dr. Jennifer Teigen.
